SAFETY DATA SHEET

BioClean

This Safety Data Sheet contains information concerning the potential risks to those involved in handling, transporting and working with the material, as well as describing potential risks to the consumer and the environment. This information must be made available to those who may come into contact with the material or are responsible for the use of the material. This Safety Data Sheet is prepared in accordance with formatting described in the REACH Regulation (EC) No 1907/2006, and described in CLP Regulation (EC) No 1272/2008.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
BioClean

1.2 Relevant identified uses of the substance or mixture and uses advised against
PC35: Washing and cleaning products (including solvent based products)

1.3 Details of the supplier of the safety data sheet
United Stonecare Ltd
Unit B Prospect Commercial Park
4 Prospect Road
Alresford
Hampshire
SO24 9QF
Alresford, England, U.K.
Tel: + 44 (0)1962 732433

1.4 Emergency telephone number
Tel: + 44 (0)1902 450950

SECTION 2: Hazards Identification

2.1 Classification of the substance or mixture
Classification in accordance with EC 1272-2008
Skin Corr. 1A H314

2.2 Labelling Hazard pictograms:

Signal word: Danger
Hazard statement: Skin Corr. 1A: H314 - Causes severe skin burns and eye damage.
Hazard pictograms: GHS05: Corrosion
2.3 Other hazards

No further hazards known.

PBT: This product is not identified as a PBT/vPvB substance.

SECTION 3: Composition

3.1 Substances

Not applicable

3.2 Mixtures

SODIUM HYPOCHLORITE SOLUTION CL ACTIVE

<table>

SECTION 4: First Aid Measures

4.1 Description of first aid measures

EYE CONTACT: Bathe the eye with running water for 15 minutes. Transfer to hospital for specialist examination.
**INHALATION:**
Remove casualty from exposure ensuring one’s own safety whilst doing so. If unconscious and breathing is OK, place in the recovery position. If conscious, ensure the casualty sits or lies down. If breathing becomes bubbly, have the casualty sit and provide oxygen if available. Transfer to hospital as soon as possible.

**SKIN CONTACT:**
Remove all contaminated clothes and footwear immediately unless stuck to skin. Drench the affected skin with running water for 10 minutes or longer if substance is still on skin. Transfer to hospital if there are burns or symptoms of poisoning.

**INGESTION:**
Wash out mouth with water. Do not induce vomiting. Give 1 cup of water to drink every 10 minutes. If unconscious, check for breathing and apply artificial respiration if necessary. If unconscious and breathing is OK, place in the recovery position. Transfer to hospital as soon as possible.

### 4.2 Most important symptoms and effects, both acute and delayed

<table>
<thead>
<tr>
<th>EYE CONTACT</th>
<th>Corneal burns may occur. May cause permanent damage.</th>
</tr>
</thead>
<tbody>
<tr>
<td>INHALATION</td>
<td>There may be shortness of breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.</td>
</tr>
<tr>
<td>SKIN CONTACT</td>
<td>Blistering may occur. Progressive ulceration will occur if treatment is not immediate.</td>
</tr>
<tr>
<td>INGESTION</td>
<td>Corrosive burns may appear around the lips. Blood may be vomited. There may be bleeding from the mouth or nose.</td>
</tr>
</tbody>
</table>

**Delayed/immediate effects:** Immediate effects can be expected after short-term exposure.

### 4.3 Indication of any immediate medical attention and special treatments needed

Eye bathing equipment should be available on the premises.

**SECTION 5: Firefighting Measures**

### 5.1 Extinguishing media

Use extinguishing media appropriate to surrounding conditions. Use water spray to cool containers.

### 5.2 Special hazards arising from the substance or mixture

Corrosive. In combustion emits toxic fumes.

### 5.3 Advice for fire fighters

Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

**SECTION 6: Accidental Release Measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Notify the police and fire brigade immediately. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Turn leaking containers leak-side up to prevent the escape of liquid.

### 6.2 Environmental precautions

Do not discharge into drains or rivers. Contain the spillage using bunding.
6.3 Methods and materials for containment and clearing up
Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method.

6.4 References to other sections
See section 7 for handling information. See section 8 for personal protection. See section 13 for disposal information.

SECTION 7: Handling and Storage

7.1 Precautions for safe handling
Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area. Do not handle in a confined space. Avoid the formation or spread of mists in the air.

7.2 Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a cool, well ventilated area. Keep contained tightly closed. Suitable packaging: Must only be kept in original packaging.

7.3 Specific end uses(s)
No further relevant information available.

7.4 Suitable Packaging
Plastic containers

SECTION 8: Exposure Controls/Personal Protection

8.1 Control parameters

<table>
<thead>
<tr>
<th>Substance</th>
<th>Long-term exposure limit (8-hr TWA reference period)</th>
<th>Short-term exposure limit (15 minute reference period)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sodium Hydroxide</td>
<td>-</td>
<td>2 mg/m³</td>
</tr>
</tbody>
</table>

8.2 Exposure Controls

- **Engineering**: Ensure there is sufficient ventilation of the area.
- **Respiratory**: Self-contained breathing apparatus must be available in case of emergency.
- **Hand protection**: Impermeable gloves.
- **Eye Protection**: Tightly fitting safety goggles. Ensure eye bath is to hand.
- **Skin protection**: Impermeable protective clothing.

SECTION 9: Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

<table>
<thead>
<tr>

<tr>
<td>Odour threshold</td>
<td>No data available</td>
</tr>
<tr>
<td>pH</td>
<td>12-14</td>
</tr>
<tr>
<td>Melting point</td>
<td>-5 - 5</td>
</tr>
<tr>
<td>Boiling point</td>
<td>95-105</td>
</tr>
</tbody>
</table>
Flashpoint: No data available
Evaporation rate: No data available
Flammability: Not applicable
Vapour pressure: No data available
Vapour density: No data available
Relative density: 1.10-1.14
Solubility in water: Soluble in water
Solubility in other solvents: No data available
Partition coefficient (log Kow): No data available
Autoignition temperature: No data available
Decomposition temperature: No data available
Viscosity: No data available
Explosive properties: No data available
Oxidising properties: No data available

9.2 Other information
None

SECTION 10: Stability and Reactivity

10.1 Reactivity
Stable under recommended transport or storage conditions.

10.2 Chemical stability
Stable under normal conditions.

10.3 Possibility of hazardous reactions
Hazardous reactions will not occur under normal transport or storage conditions. Decomposition may occur on exposure to conditions or materials listed below.

10.4 Conditions to avoid
Heat. Frost.

10.5 Incompatible materials
Acids. Ammonia.

10.6 Hazardous decomposition products
In combustion emits toxic fumes.

SECTION 11: Toxicological Information

11.1 Information on toxicological effects

Toxicity values:

<table>

</tbody>
</table>

Delayed/immediate effects: Immediate effects can be expected after short-term exposure

SECTION 12: Ecological Information

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

12.1 Toxicity
No data available.

12.2 Persistence and degradability
Biodegradable.

12.3 Bioaccumulative potential
No bioaccumulation potential.

12.4 Mobility in soil
Readily absorbed into soil.

12.5 Results of PBT and vPvB assessment
This product is not identified as a PBT/vPvB substance.

12.6 Other adverse effects
Negligible ecotoxicity.

SECTION 13: Disposal Considerations

13.1 General information
Transfer to a suitable container and arrange for collection by specialised disposal company.
13.2 Disposal methods
Dispose of in compliance with all local and national regulations.

13.3 Disposal of packaging
Empty containers can be cleaned with water.

13.4 Further information
Do not empty into drains/sewage system.

SECTION 14: Transport Information

This product is not classified as dangerous for transport.

<table>
<thead>
<tr>
<th>14.1 UN Number</th>

SECTION 15: Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
Not applicable.

15.2 Chemical Safety Assessment
A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

SECTION 16: Other Information

Revision information:
New SDS
This safety data sheet is prepared in accordance with Commission Regulation (EU) No 2015/830

Phrases used in Section 2 and 3:
EUH031 Contact with acids liberates toxic gas.
H314 Causes severe skin burns and eye damage.
H400 Very toxic to aquatic life.

Legal disclaimer:
The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
